

Infinity 26 Touch

Continuous Flow Hot Water

Rinnai

Relax. It's a Rinnai.

A Touch of Rinnai genius.

Just like when Rinnai pioneered gas continuous flow hot water systems with the introduction of the Infinity to Australian families in the 90's, the brand new Rinnai Infinity 26 Touch is set to change the way Australians think about their hot water system and temperature control.

Our innovative culture has driven us to create a brand new water heater, incorporating our unique fingertip wireless temperature control technology and the famous Rinnai Infinity 26 – combined to make the Infinity 26 Touch.

It's only when you experience the convenience and ingenuity of temperature control that you'll wonder how you ever lived without it. Imagine consistent, continuous hot water, at the precise temperature you enjoy, at a touch. The ultimate in hot water control convenience, the Rinnai Infinity 26 Touch lets you select your temperature, turn the hot tap only and enjoy. The portability of the wireless controller gives you the flexibility to set your hot water temperature from wherever you are, not just in the bathroom or kitchen. Controller needs no wiring, no messy installation, no holes in your bathroom walls. A touch of Rinnai genius.

Features and Benefits

- > Rinnai Infinity 26 - Australia's favorite continuous flow, now supplied with a wireless controller to make the step up to wireless temperature control an easy one.
- > Superior 6 star energy efficiency reduces running costs.
- > 12 Year heat exchanger warranty – the hardest working part of the appliance and Rinnai offer you the best warranty in the business.
- > Accurate wireless fingertip temperature control – no more mixing hot and cold.
- > No holes temperature controller installation – no messy wiring. So easy.
- > Quality Japanese design and manufacturing in Rinnai's own high tech facility – rest assured you are buying a quality water heater from a quality manufacturer.
- > High quality componentry engineered to last – water heaters have a tough life and are on and off all day. At Rinnai we design to last and manufacture our own high quality components in our own manufacturing facilities.
- > Puretemp™ temperature stability technology - means PCB controlled and perfectly stable outlet water temperature adding safety for your family.
- > Water heater status operation monitor – helping the technician diagnose in the unlikely event of a fault.
- > Sleek and compact design will complement the look of your home and not take up valuable outdoor space.
- > Low flow shower head compatible to help conserve our precious water supplies and save you money.

Specifications

Model	Infinity Touch 26
Flow rate l/min @ 25°C rise	26
Min operating flow rate	2.4
Installation	External
Gas consumption MJ/h (high)	199
Star Rating	6.1
Pre Set Temps	50°/60°C
Domestic use Warranty	
Parts and labour	3 years
Heat exchanger (part only)	12 years
Gas Type	NG / LP
Weight (kg)	16
Max water supply pressure (kPa)	1000
Min water supply pressure (kPa)	200
Cold Water connection (mm)	20 (3/4")
Hot Water connection (mm)	20 (3/4")
Gas Connection (mm)	20 (3/4")
Status monitor	Y
